12th May 2020

Dear Parents / Carers,

Further to the most recent guidelines announced by the government, I am writing to advise you of the implications that this has for us and the educational provision that we offer for your child.

As it stands, there is no immediate change. We will continue to be open for the children of key workers as we have done so throughout this period. For all other pupils, they will continue to stay at home and access the range of home learning activities and independent study resources that are in place. They should still record the activities that they are completing and submit a learning journal on a weekly basis.

It is evident from the government announcement that for many pupils, this will remain the case for some time to come and therefore we will continue to provide a range of stimulating resources which we hope our pupils will enjoy. In addition, as previously communicated, we are working to develop a number of online lessons and will send a schedule of what is happening in due course.

For our Year 10 pupils, we are responding to the advice of the Department for Education. We are currently looking at how we can safely provide some face to face provision from the beginning of June, if as stated, the government targets for managing the virus are met.

We will provide you with further information as and when we have the clarity to do so but in the meantime, please continue to follow the current guidelines and complete work at home.

I would like to thank you personally for your ongoing support and understanding. I will communicate further in due course.

Kind regards,

K Rowlands
Headteacher
