Headteacher – Mr K Rowlands

February 11th, 2022

Dear Parents / carers,

As you may be aware, exam boards have this week published detail concerning 'pre release information' relating to the Summer 2022 examinations. This information has been made available to teachers and students as a result of impacted learning during the Coronavirus pandemic. To help support this summer's examination process, some exam boards have reduced the focus of assessed study, some subject areas have released a list of topic areas that will be studied and some have released detail on the type of questions students will be asked.

This information has been communicated to students in school and is available for viewing on examination board websites.

To provide with you with as much information as possible to help support your child's study we will issue a guidance pack in the week commencing February 21st with all the information that will impact your child's summer exams. This will cover all subjects with examinations in school and the impact this may have on revision / examination preparation.

If you have any further questions, please do not hesitate to contact me.

Kind regards,

Miss Romaniw
