13<sup>th</sup> June, 2022

Dear parent / guardian,

With the Summer examination period drawing to a close, the Academy has taken the decision to allow Year 11 students to study at home from **Thursday 16<sup>th</sup> June 2022**. This does not mean that the examination series has completed; the calendar below provides details of upcoming examinations and revision sessions still in school. *It is important that these lessons are still attended and your child is present in school to complete these sessions with their teacher.* When not in school, students will be expected to continue with independent revision at home and arrive promptly on site for any further study sessions and examinations. A reminder that for morning examinations students are expected to be in classrooms at 8.50am, and afternoon examinations at 12.50pm. There is no impact on the transport methods offered by school.

If students are leaving site, they will only be permitted to do so with parental consent and will need to formally sign out of the Academy. For those students wishing to stay in school, study room provision will be offered until **Thursday 23<sup>rd</sup> June**, and supervised by teachers for the duration of the school day. On Thursday 23<sup>rd</sup> June during periods 3, 4 and 5 we will run their leaver's celebration, in which students are welcome to bring in an additional shirt and pens for the traditional shirt signing.

Please find below a link to a Google form where you are able to digitally give permission for the child you are responsible for to leave school.
